

TABLE OF CONTENTS

PREFACE	v
Chapter 1. An Introduction to Natural Resources Law and Policy	1
I. Why Study Natural Resources Law?.....	1
II. A Short History of Natural Resources Management in the United States	2
TVA v. Hill	9
III. What's Natural About Natural Resources?	10
Chapter 2. Perspectives on Natural Resources Law and Policy.....	15
I. Three Analytic Frameworks	15
A. Environmental Rights	16
B. Utilitarianism and Cost-Benefit Analysis.....	19
C. Sustainable Development.....	21
II. Basic Themes of Natural Resources Law.....	23
A. Scarcity.....	24
B. Misaligned Incentives and the Commons	27
C. Market Failure.....	30
D. Agency Capture.....	32
E. Scientific Uncertainty.....	33
F. Cognitive Biases.....	35
G. Mismatched Scales	36
Chapter 3. The Practice of Managing Natural Resources	41
I. Federalism: Which Level of Government Manages the Resource?.....	41
A. Historical State Dominance	41
B. Federal Exceptions	42
1. Federal Property	43
2. Federal Legislation	44
3. Other Federal Involvement	48
4. Shared Authority	48
C. American Indian Nations	49
II. Approaches to Allocating Natural Resources	50
A. The U.S. Preference for Private Resource Rights.....	51
B. Common Ownership	52
C. Typical Allocation Approaches.....	52
D. Designing Resource Rights	53
III. Regulating Natural Resource Extraction and Use.....	54
A. Prescriptive Regulation	55
B. Private Property Rights	55
C. Financial Penalties	57
D. Financial Payments	58
E. Persuasion	58
F. Putting the Toolkit to Work	59
IV. The Administrative Law of Natural Resources	60
A. Basics of Administrative Law	60
B. Rulemaking	63
C. Adjudication	66
D. Final Agency Action.....	67

TABLE OF CONTENTS

V.	How Environmental Groups Shape Natural Resource Management	67
A.	Lobbying	67
B.	Citizen Suits	68
C.	Standing	70
	Lujan v. Defenders of Wildlife	73
	Chapter 4. Limits on Governmental Action	77
I.	The Public Trust Doctrine	77
A.	Tidelands and Navigable Waterways	77
B.	Water	79
C.	Other Resources	80
II.	Protecting Interstate Commerce Through the Dormant Commerce Clause	81
III.	Protecting Economic Expectations	84
A.	Takings	84
	Lucas v. South Carolina Coastal Council	88
B.	Contract Violations	92
	Chapter 5. The National Environmental Policy Act	97
I.	When Must an Agency Prepare an EIS?	99
II.	Timing & Process	102
	The NEPA Decision-Making Process	103
III.	Contents and Adequacy of the EIS	103
IV.	Scope of the EIS	105
V.	Does It Work?	106
	Chapter 6. Wildlife Protection	109
I.	A Brief History of Wildlife Law	110
A.	Pre-U.S. History	110
B.	The History of State Regulation	111
	1. Regulation of Take	112
	2. Agencies & Commissions	112
	3. Restrictions on Who Could Hunt & Fish	113
	4. Restrictions on Wildlife Exports	114
	5. Summary	114
C.	The Growth of Federal Wildlife Law	114
II.	Wildlife Management Today	116
A.	State Law	116
B.	Federal Law	117
III.	Protection of Endangered Species	119
A.	U.S. Endangered Species Act	120
	1. Listing Species	122
	2. Limits on Federal Agency Actions	124
	3. Private Violations	127
	a. The Prohibition on “Takings”	127
	b. Incidental Take Permits	130
	c. Administrative Reforms	131
	d. Criticisms of Section 9	131
	4. Recovery Plans & Other Provisions	133
	5. Does the ESA Work?	134
B.	State Endangered Species Protections	135
C.	Convention to Regulate International Trade in Endangered Species (CITES)	135

TABLE OF CONTENTS

Chapter 7. Marine Life	139
I. The Magnuson-Stevens Fishery Conservation and Management Act.....	139
A. Principles of Fishery Management.....	142
1. The Concept of Maximum Sustainable Yield.....	142
2. Protecting the Marine Environment from Harm.....	145
3. Allocating Catches Among Fishermen.....	147
B. The Evolution of the Magnuson-Stevens Act.....	149
1. The 1976 Act.....	149
2. The Sustainable Fisheries Act of 1996.....	152
3. 2006 Amendments.....	156
II. Whaling.....	157
 Chapter 8. Water Resources	 165
I. Allocating Water.....	165
A. State Allocation of Surface Water.....	166
1. The Eastern Riparian Doctrine.....	166
2. The Western Prior Appropriation Doctrine.....	167
3. Mixed Doctrine States.....	169
B. State Allocation of the Benefits of Groundwater.....	170
1. Allocation of Groundwater.....	170
2. Aquifer Storage Capacity.....	173
C. Groundwater-Surface Water Interactions.....	173
D. Interstate Water Allocation.....	174
1. Adjudications.....	175
2. Compacts.....	176
3. Congressional Allocations.....	177
E. Federal Water Rights.....	177
1. Indian Water Rights.....	177
2. Other Federal Reserved Water Rights.....	179
II. Current Water Issues.....	180
A. Encouraging Water Conservation.....	180
B. Environmental Protection.....	182
National Audubon Society v. Superior Court.....	183
III. Water Markets.....	186
IV. Water Suppliers.....	188
A. Local Water Suppliers.....	188
B. The Federal Reclamation Program.....	191
 Chapter 9. Federal Public Lands and Ocean	 195
I. Overview.....	197
II. Regulatory Authority.....	199
A. Congress.....	199
B. The President.....	201
C. Land Management Agencies.....	201
D. States.....	202
III. Management of Public Use.....	203
A. Preservation versus Conservation.....	203
B. The Spectrum from Multiple-Use to Dominant-Use.....	205
1. The Federal Land Policy & Management Act.....	205
2. The Wilderness Act.....	206
3. Other Public Land Laws.....	208
West Virginia Division of Izaak Walton League of America, Inc. v. Butz.....	210

TABLE OF CONTENTS

C.	Resource Allocation Systems on Federal Land.....	212
1.	Contracts, Leases, and Permits	212
2.	Allocation of Resource Rights.....	213
IV.	Agency Decision-Making Processes.....	214
A.	The Pros and Cons of Process and Public Input	214
B.	Long-Term Planning.....	215
C.	Judicial Review of Agency Decisions.....	218
Chapter 10.	Private Lands.....	221
I.	Federal Wetland Protection.....	221
A.	Rivers & Harbors Act of 1899	223
B.	Section 404 of the Clean Water Act.....	223
1.	What Are “Navigable Waters”?.....	224
2.	What Is a “Discharge” of Material?	227
3.	Special Exemptions.....	229
4.	The Permitting Process	229
5.	General Permits.....	232
6.	EPA Vetoes.....	233
7.	Constitutional Takings Challenges	233
C.	Incentive Programs.....	233
II.	Protection of Coastal Lands	234
A.	Coastal Land as a Natural Resource.....	234
B.	The Coastal Zone Management Act.....	236
C.	Law of the Beach.....	238
1.	Beach Erosion.....	239
Lucas v. South Carolina Coastal Council.....		241
2.	Dry-Sand Access.....	242
Nollan v. California Coastal Commission		244
III.	Conservation Easements.....	245
Chapter 11.	Fossil Fuels.....	251
I.	Oil & Gas Law.....	252
A.	The Development of Oil & Gas Law	254
B.	Addressing the Tragedy of the Commons	259
C.	Storage of Natural Gas.....	260
D.	Federal Oil & Gas Leases.....	261
1.	On-Shore Leases	261
2.	Off-Shore Leases	263
E.	Fracking	264
II.	The Law of Coal.....	266
A.	Allocating Coal.....	266
1.	Private Mineral Estates	266
2.	Coal Leases on Federal Lands	267
B.	Addressing the Externalities from Coal Production....	268
C.	Carbon Capture and Storage	270
Chapter 12.	Energy Policy.....	275
I.	Today’s Energy Concerns.....	275
II.	Conservation.....	279
III.	Renewable Energy.....	282
IV.	Siting New Energy Facilities and Transmission Lines.....	288
Chapter 13.	Hardrock Mining.....	293
I.	Mining Methods and Their Impacts.....	294
II.	Mining Law on Private Lands.....	296

TABLE OF CONTENTS

III. Mining Law on Public Lands297
 A. The General Mining Act of 1872297
 Cameron v. United States301
 B. The Common Varieties Act302
 C. Environmental Protection303
 D. Current Challenges306
