<b>Chapter 1. Domestic and Global Environmental Policy Institutions and Actors.....</b>	<b>1</b>
Introduction.....	1
U.S. Environmental Policy Institutions and Actors .....	2
The Chief Executive.....	2
Congress .....	3
The Courts.....	5
The Executive Office of the President.....	6
The Environmental Protection Agency (EPA).....	7
The Department of the Interior (DOI).....	10
The Forest Service (FS).....	12
The Department of Energy (DOE).....	13
Army Corps of Engineers (USACE) .....	13
National Aeronautics and Space Administration (NASA).....	14
National Oceanic and Atmospheric Administration (NOAA) .....	14
The Role of the States .....	14
Environmental Interest Groups .....	15
The Media.....	16
Global Environmental Policy Institutions and Actors.....	16
The United Nations System .....	17
UN Conferences.....	17
United Nations Environment Programme .....	19
The Commission on Sustainable Development and the High-Level Political Forum.....	20
The Global Environment Facility .....	21
Environmental Regime Secretariats and Environmental Departments in Non-Environmental Organizations .....	22
Nongovernmental Organizations .....	23
Conclusion.....	23
<b>Chapter 2. Domestic and Global Environmental Policymaking .....</b>	<b>29</b>
Introduction.....	29
Domestic Environmental Policymaking.....	30
Congressional Policymaking.....	30
Bureaucratic Policymaking .....	32
Presidential Policymaking .....	34
Judicial Interpretation of the Law .....	36
Approaches to Environmental Policymaking .....	37

Global Environmental Policymaking.....	40
Sovereign Nations and Collective Action Problems.....	40
About MEAs.....	41
Agenda Setting, Negotiation, and Operationalization of Multilateral Environmental Agreements: The Climate Change Example.....	43
MEAs in Chronological Context.....	44
Weaknesses of Multilateral Environmental Agreement Policymaking.....	48
Conclusion.....	50
<b>Chapter 3. Population, Consumption, and the Carrying Capacity of the Earth.....</b>	<b>53</b>
Introduction.....	53
Population.....	54
Population Growth and Carrying Capacity.....	54
Projected Population Growth and Environmental Impacts.....	57
The Politics of International Population and Development Conferences and Institutions.....	59
Consumption.....	64
Water.....	64
Food.....	65
Energy.....	66
Conclusion.....	70
<b>Chapter 4. Air Quality and Clean Air Policies.....</b>	<b>77</b>
Introduction.....	77
Domestic Considerations.....	79
Early Federal Legislation.....	80
The Clean Air Act of 1970.....	80
The Clean Air Act Amendments of 1977.....	85
The Clean Air Act Amendments of 1990.....	86
Greenhouse Gas Reporting.....	90
Global Considerations.....	90
Convention on Long-Range Transboundary Air Pollution.....	91
Stockholm Convention on Persistent Organic Pollutants (POPs).....	91
Montreal Protocol on Substances That Deplete the Ozone Layer.....	92
United Nations Framework Convention on Climate Change.....	93
Air Pollution: A Global Health Risk.....	95
Conclusion.....	96
<b>Chapter 5. Clean Water Policies.....</b>	<b>103</b>
Introduction.....	103
Domestic Considerations.....	105
Early Federal Legislation.....	105

---

Clean Water Act and Its Amendments (CWA).....	107
Evaluation of the CWA .....	110
Safe Drinking Water Act of 1974 and Its Amendments (SDWA) ....	111
Evaluation.....	114
Wetlands Protections.....	115
Availability of Clean Water in the U.S. Future.....	116
Global Considerations .....	117
Fresh Water Crisis in Access to Clean Water.....	118
Multilateral Water Agreements .....	121
U.S. Agreements with Canada and Mexico .....	122
Conclusion.....	124
<b>Chapter 6. Non-Hazardous Solid Waste Policy .....</b>	<b>133</b>
Introduction.....	133
Domestic Considerations .....	135
Disposal Methods .....	136
Waste Diversion Strategies .....	138
Federal Legislation .....	140
Recycling and Composting Results .....	142
Shift to a No-Waste Paradigm .....	143
Global Considerations .....	144
Solid Waste Globally .....	145
Conclusion .....	146
<b>Chapter 7. Chemical and Hazardous Substances Policy .....</b>	<b>153</b>
Introduction.....	153
Domestic Considerations .....	154
Federal Legislation and Policy .....	157
Global Considerations .....	167
Precautionary Principle .....	168
International Environmental Agreements .....	169
International Environmental Justice.....	172
Conclusion .....	172
<b>Chapter 8. Land, Natural Resources, and Wildlife .....</b>	<b>179</b>
Introduction.....	179
Domestic Considerations .....	181
Federal Legislation and Policies.....	182
Public Land Designations.....	188
Funding for Federal Land.....	191
Disputes over Federal Land and Species Protection .....	191
Global Considerations .....	196
International Treaties.....	197

National Parks Worldwide and Transboundary Protected Areas .....	200
Conclusion .....	202
<b>Chapter 9. The Oceans .....</b>	<b>209</b>
Introduction.....	209
Domestic Considerations .....	210
Federal Legislation and Policies.....	210
Domestic Ocean Issues of Importance.....	215
Global Considerations .....	217
The Challenges the Oceans Face.....	217
International Treaties and Policies .....	220
Regional Ocean Policies.....	226
International Ocean Management Organizations.....	227
Conclusion.....	230
<b>Chapter 10. Fossil Fuels .....</b>	<b>239</b>
Introduction.....	239
Domestic Considerations .....	240
U.S. Use of Fossil Fuels .....	240
U.S. Production of Fossil Fuels .....	242
Environmental Impacts of Fossil Fuel Use.....	244
Energy Security and Early Policy Responses.....	247
Energy Laws, Policies, and Politics After Carter .....	248
Global Considerations .....	251
Global Use of Fossil Fuel .....	251
Global Production of Fossil Fuel.....	252
Global Environmental Impacts from Fossil Fuel Use .....	253
Fossil Fuel Use in a Warming World.....	255
Conclusion .....	257
<b>Chapter 11. Nuclear Power .....</b>	<b>267</b>
Introduction.....	267
Domestic Concerns.....	268
The Development of the U.S. Nuclear Energy Industry .....	268
Environmental Concerns and the U.S. Nuclear Industry .....	271
Global Concerns.....	276
The Birth and Development of the Global Nuclear Power Industry .....	276
Environmental Concerns and the Global Nuclear Industry .....	281
Conclusion.....	285
<b>Chapter 12. Renewable Energy .....</b>	<b>293</b>
Introduction.....	293

Domestic Considerations .....	294
Renewable Energy Use in the U.S.....	294
Environmental Consequences of Renewable Energy Use.....	303
Federal Law and Policy .....	306
State and Local Law and Policy .....	308
Global Considerations .....	310
The Use of Renewables Globally .....	310
Conclusion.....	315
<b>Chapter 13. The Ozone Layer.....</b>	<b>323</b>
Introduction.....	323
Multilateral Efforts to Combat Ozone Depletion .....	324
The Phenomenon of Ozone Depletion .....	324
The Discovery of the Ozone ‘Hole’ .....	326
Vienna Convention for the Protection of the Ozone Layer.....	327
Further Scientific Investigation and Understanding .....	328
Montreal Protocol on Substances That Deplete the Ozone Layer ...	329
Scientific Proof.....	331
London Amendment of 1990.....	331
Copenhagen Amendment of 1992.....	332
Montreal Amendment of 1997 .....	333
Beijing Amendment of 1999 .....	333
MOP 21 Through MOP 28.....	333
Kigali Amendment of 2016.....	334
U.S. Phaseout of ODS.....	336
Factors Leading to Success of the Montreal Protocol .....	337
Conclusion.....	339
<b>Chapter 14. Climate Change Policy.....</b>	<b>345</b>
Introduction.....	345
Multilateral Efforts to Combat Climate Change .....	347
The Phenomenon of Climate Change .....	347
The Growing Awareness of the Global Warming.....	350
The United Nations Framework Convention on Climate Change....	352
The Kyoto Protocol.....	352
Negotiating a Successor Treaty to the Kyoto Protocol.....	354
The Paris Agreement.....	355
The Role of U.S. Climate Change Policy.....	357
Federal Actions.....	357
State and Local Actions.....	359
Climate Change Policy’s Uncertain Future .....	361
The Political Will to Act.....	361
Managing a Solution Given Global Dependence on Fossil Fuels .....	362
Geoengineering .....	363

Conclusion.....	364
BIBLIOGRAPHY .....	371
INDEX.....	425
