

TABLE OF CONTENTS

PREFACE V

PART 1. TOOLS OF THE TRADE

Chapter 1. An Introduction to Environmental Law and Policy..... 3

I. Why Study Environmental Law?..... 3

II. A Short History of Environmental Protection 5

 A. Natural Resources 5

 B. Pollution 11

 Scenic Hudson Preservation Conference v. Federal Power Commission..... 13

Chapter 2. Perspectives on Environmental Law and Policy..... 17

I. Basic Themes of Environmental Law..... 17

 A. Scientific Uncertainty..... 17

 B. Market Failures 21

 1. Public Goods 21

 2. The Tragedy of the Commons 22

 3. Collective Action and Free Riders..... 23

 4. Externalities..... 24

 C. Mismatched Scales 25

 D. Cognitive Biases..... 28

 E. Protected Interests..... 30

II. Four Analytical Frameworks 31

 A. Environmental Rights 33

 B. Sustainable Development..... 36

 C. Utilitarianism and Cost-Benefit Analysis..... 38

 D. Environmental Justice 42

 Case Study: Fracking 46

Chapter 3. The Practice of Environmental Protection 51

I. Instrument Choice 51

 A. The Regulatory Toolkit..... 52

 1. Prescriptive Regulation..... 54

 2. Property Rights..... 55

 3. Financial Penalties..... 58

 4. Financial Payments..... 58

 5. Persuasion..... 59

 B. Putting the Toolkit to Work 59

 C. Instrument Design Issues 61

 D. Where to Go from Here? 63

II. The Administration of Environmental Protection..... 65

 A. Basics of Administrative Law 66

 1. Rulemaking 68

 a. Changing Rules 70

b.	The <i>Chevron</i> Doctrine	71
	Chevron U.S.A. Inc. v. Natural Resources Defense Council	72
c.	Non-Legislative Rules	74
2.	Adjudication	74
3.	Final Agency Action	74
III.	Constitutional Issues in Environmental Policy	75
A.	Congressional Powers	75
B.	State Environmental Authority	78
C.	Legislative Delegation	79
D.	Regulatory Takings	81
	Lucas v. South Carolina Coastal Council	84
IV.	How Citizen Groups Shape Environmental Law	86
	Chapter 4. Enforcement	91
I.	The Challenges of Enforcing the Law	91
II.	The Players	93
III.	The Enforcement Process	96
A.	Detection	96
	Problem Exercise: Audit Immunity Policies	97
B.	Civil Enforcement	98
1.	Administrative Versus Civil Proceedings	99
2.	Fines and Other Penalties	99
3.	Other Compliance Measures	100
C.	Criminal Enforcement	101
IV.	Citizen Suits	102
A.	Statutory Authorization	102
B.	Standing	105
	Lujan v. Defenders of Wildlife	107
C.	SLAPP Suits	110

PART 2. POLLUTION

	Chapter 5. The Clean Air Act	115
I.	The Challenges of Regulating Air Pollution	115
A.	National Ambient Air Quality Standards (NAAQS)	119
	Lead Industries Association, Inc. v. EPA	120
1.	State Implementation Plans (SIPs)	122
B.	New Source Performance Standards (NSPS) and Grandfathered Sources	125
C.	Trading	127
	Problem Exercise: Rule 1610	135
D.	Interstate Pollution	136
E.	Prevention of Significant Deterioration (PSD)	136
F.	Hazardous Air Pollutants	138
G.	Mobile Sources and Technology-Forcing	139
H.	The CAA of Tomorrow	141
	Chapter 6. Global Air Pollution	143
I.	Ozone Depletion	143
A.	The Science of Ozone Depletion	143

B.	International Controls	145
C.	Developing Countries	148
D.	Greenhouse Gases	150
E.	Lessons Learned	150
II.	Climate Change	152
A.	The Science of Climate Change	152
B.	Impacts of Climate Change	158
C.	International Legal Responses	159
D.	Climate Change Policies—No Regrets and Flexibility Mechanisms	161
E.	The Paris Agreement	164
F.	The Clean Air Act	165
	Massachusetts v. EPA	166
G.	Sub-National Activity	169
	Chapter 7. Water Pollution	175
I.	An Overview of Water Pollution	176
II.	A Brief History of Water Quality Regulation	178
III.	The Clean Water Act	179
A.	Regulation of Point Sources	181
1.	NPDES Permits	182
2.	Publicly Owned Treatment Works	182
3.	Industrial Point Sources	183
4.	Existing Point Sources	186
5.	New Point Sources	187
6.	Industry-by-Industry Determination	188
7.	Indirect Sources	188
8.	Groundwater	189
9.	Criticism of the Technological Approach	189
B.	The Non-Regulation of Nonpoint Sources	190
C.	Escaping Regulation as a Point Source of Pollutants	192
1.	What Is a Point Source?	192
2.	When Does a Point Source “Add” “Pollutants”?	194
D.	Water Quality Standards	196
E.	Always Cleaner, Never Dirtier	199
F.	Water Quality Trading	199
	Problem Exercise: Water-Quality Trading in the Minnesota River Basin	201
G.	Interstate Water Pollution	202
	Chapter 8. Regulating Toxic Substances	207
I.	The Difficulties of Regulating Toxic Substances	209
A.	Is “Tolerable Risk” an Oxymoron?	209
B.	The Problem of Uncertainty	212
1.	A Paucity of Information	213
2.	The Difficulty of Determining Cancer Risks	214
3.	Regulating Under Uncertainty	217
II.	Major Regulatory Options	218
A.	Pure Health-Based Statutes	219
B.	Feasibility Statutes	221

C.	Risk-Benefit Statutes	223
1.	Federal Insecticide, Fungicide, and Rodenticide Act	223
2.	Toxic Substances Control Act.....	223
3.	“Paralysis by Analysis”	225
4.	Criticisms.....	227
D.	Informational Approaches.....	228
1.	The Toxic Release Inventory	228
2.	California’s Proposition 65	229
	Problem Exercise: Calcium Supplements & Antacids	231
	Chapter 9. Waste Management	235
I.	The Resource Conservation Recovery Act.....	235
A.	What Is It?.....	237
1.	Solid Waste and Strategic Behavior	237
2.	Solid Hazardous Waste and Closing Loopholes	241
B.	Who Am I?	244
1.	Generators, Transporters and TSDs.....	244
2.	The Land Ban and Regulatory Hammers	246
C.	Subtitle D	248
D.	The Challenge of Pollution Prevention.....	249
	Problem Exercise: Reclaiming Lead from Vehicle Batteries	251
II.	The Comprehensive Environmental Response, Compensation and Liability Act	252
A.	The Cleanup Process	254
1.	Listing and Prioritization of Sites.....	254
2.	Responses	255
B.	Compensation for Response Actions.....	256
1.	Potentially Responsible Parties (PRPs).....	257
2.	Liability Standards	258
C.	Defenses.....	259
1.	Acts of God, War, or a Third Party	259
2.	Divisibility	260
	Burlington Northern & Santa Fe Railway v. United States.....	261
3.	Small Contributors	262
4.	Municipalities.....	263
5.	Lenders	263
6.	Innocent Landowners	264
7.	Settlement Strategies	265
D.	Brownfields	265
E.	How Clean Is Clean?.....	267
F.	Superfund Reform.....	268

PART 3. NATURAL RESOURCES

	Chapter 10. Wetlands, Endangered Species, and the Public Trust.....	275
I.	The Nation’s Diminishing Resources	275

II.	The Public Trust Doctrine.....	276
A.	Tidelands and Navigable Waterways.....	277
B.	Water	278
C.	Other Resources.....	280
III.	Protecting Wetlands	281
A.	Rivers & Harbors Act of 1899	282
B.	Section 404 of the Clean Water Act.....	282
1.	What Are “Navigable Waters”?.....	283
2.	What Is a “Discharge” of Material?.....	286
3.	Special Exceptions	288
4.	The Permitting Process	289
5.	General Permits	291
6.	EPA Vetoes.....	292
7.	Constitutional Takings Challenges	292
C.	Incentive Programs.....	293
IV.	The Endangered Species Act.....	293
A.	Listing Species	297
B.	Limits on Federal Agency Actions	300
C.	Private Violations	304
1.	The Prohibition on “Takings”	304
2.	Incidental Take Permits.....	307
3.	Administrative Reform Efforts.....	308
4.	Criticisms of Section 9	309
5.	Constitutional Takings Challenges to Section 9.....	310
	Problem Exercise: The Edwards Aquifer.....	311
D.	Recovery Plans & Other Provisions.....	312
E.	Does the ESA Work?.....	312
	Chapter 11. Energy	315
I.	Today’s Energy Landscape & Concerns	315
II.	Conservation	319
III.	Renewable Energy	322
IV.	Siting New Energy Facilities and Transmission Lines.....	328
	Case Study: The Spanish Fork Wind Project.....	330
V.	Environmental Issues.....	331
A.	Carbon Capture and Storage	331
B.	Fracking.....	333

PART 4. ENVIRONMENTAL IMPACT STATEMENTS

	Chapter 12. The National Environmental Policy Act	339
I.	NEPA Grows Teeth	340
	Calvert Cliffs’ Coordinating Committee, Inc. v. United States Atomic Energy Commission	341
II.	When Must an Agency Prepare an EIS?.....	342
A.	Major Federal Actions	343
B.	Significantly Affecting the Human Environment.....	345
C.	Categorical Exclusions	345
III.	Timing	346
	The NEPA Decisionmaking Process.....	347
IV.	Adequacy of the EIS	348

TABLE OF CONTENTS

V. Limiting the Reach of NEPA 352
VI. Does It Work?..... 353
TABLE OF CASES 357
DEFINITIONS 361
INDEX..... 363
