

OUTLINE

PREFACE	V
ACKNOWLEDGMENTS	IX
ABBREVIATIONS	XI

PART I. INTRODUCTORY

Chapter 1. Overview of International Project Finance	3
A. What Is International Project Finance?	3
1. A Type of Structured Finance	3
2. Comparison with Corporate and Sovereign Finance	4
B. Basic Characteristics	6
1. Special Project Vehicle	7
2. The Revenue Stream	7
3. Non-Recourse or Limited Recourse Financing	7
4. Risk Identification and Allocation	8
5. Complex Documentation	8
6. Highly Leveraged Capital Structure	9
7. Diversity of Lenders	9
8. Different Types of Lenders for Different Stages	9
9. Back-Up Credit Support	10
10. Project Accounts	10
11. Security over Project Assets	10
12. Intercreditor Issues	10
13. Renegotiation and Restructuring	11
14. Unique Dispute Settlement	11

15. Long Term Nature	11
C. Main Participants	11
1. Host Government	12
2. Sponsor	12
3. Lenders	13
4. Special Project Vehicle.....	14
5. Other Equity Investors	14
6. Engineers and Other Technical Experts ...	14
7. Contractors	15
8. Providers of Back-Up Credit Support	15
9. Hedge Providers	16
10. Purchasers and Users.....	16
11. Input Suppliers	16
12. Operator	17
13. Environmental and Social Issue Advisors	17
14. Other Advisors	17
D. Main Stages	18
1. Pre-Construction Phase	18
a. Pre-Feasibility.....	18
b. Feasibility Phase.....	19
c. Preparation and Procurement Phase.....	21
2. Construction Phase	23
3. Completion Testing/Start-Up Phase	24
4. Operational Phase.....	25
E. Documentation.....	26
F. Why Would a Sponsor Choose to Use Project Finance?	26
1. Disadvantages	27
2. Advantages	27

Chapter 2. The Role of Lawyers in a Project

Financing	29
A. Overall Staffing of an International Project	29
B. General Role of Lawyers	30
C. Legal Work by Phases of the Project	31
1. Pre-Feasibility and Feasibility Phases	31
2. Preparation and Procurement Phase.....	31
3. Construction Phase	32
4. Completion Testing/Start-Up Phase	33
5. Operating Phase.....	33
D. “Project Side” and “Finance Side” Legal Work	34

**PART II. PROJECT PREPARATION
AND STRUCTURING**

Chapter 3. Risk Identification and Due

Diligence	39
A. Risk Analysis	40
1. The Importance of Risk Analysis	40
2. Methods of Risk Classification	40
3. The Risk Matrix	41
B. Legal Due Diligence.....	42
C. Specific Due Diligence Issues.....	45
1. Environment, Climate Change Social, and Human Rights Issues	45
2. Corruption	47
3. Public-Private Partnership Arrangements	48
4. International Investment Law	49
5. Use of Derivatives	50
6. Dispute Resolution Planning.....	51

Chapter 4. Project Procurement	53
A. General Procurement Principles and Methods	54
1. Basic Objectives.....	55
2. Methods of Achieving These Basic Objectives	55
B. The Procurement Process.....	58
1. Selection of the Rules.....	58
2. Basic Stages.....	59
C. General Issues That May Require Legal Input	61
D. Special Considerations in the Award of Concessions	63
1. Need for Flexibility in the Bidding Process	63
2. Unsolicited Bids	65
3. Role of Finance in the Award of Concessions	66
E. Site Acquisition.....	67
F. Summary of the Importance of Procurement.....	68
 Chapter 5. Structuring and Governing the Sponsor's Interest in the Project	 71
A. Overview of Project Structuring	71
1. The Process.....	72
2. Sponsor Objectives	72
B. Basic Considerations	73
1. Tax.....	73
2. Accounting	74
3. Limited Liability	74
4. Control and Management.....	75
5. Bankruptcy Remoteness	75

C.	Structuring the Special Project Vehicle	76
1.	The Options	77
2.	Selecting the Best Option	77
3.	Most Common SPV Forms.....	78
a.	Corporation.....	78
b.	Partnership	78
c.	Unincorporated Joint Venture	79
D.	Structuring the Chain of Investment	80
1.	Objectives.....	80
2.	Methods of Meeting Objectives	81
E.	Structuring the Relations Among the Owners	82
1.	Financial Issues	82
a.	Contributions of the Participants	82
b.	Willingness to Provide Supplemental Credit Support	83
c.	Profits, Reserves and Distributions	83
2.	Management and Control Issues	83
3.	Checklist of Provisions of an Agreement Among Owners.....	85
F.	Governing the Sponsor, the SPV, and the Project.....	87

Chapter 6. Creating the Overall Structure of the Project

A.	Basic Lender Concerns.....	89
B.	Project Finance Techniques and Structures	90
1.	Contractual Credit Support.....	90
2.	Deficiency Agreements	92
3.	Reserve Based Finance	93
4.	Advance Payment Financing.....	95
5.	Lease Financing	96
6.	Charterparty Contract.....	98

7. Construction Trust Financing	98
8. Hybrid Project Financing	99
9. Project Accounts	100
10. Public-Private Partnerships.....	101
11. Equity Funding Techniques for Project Developers	101

PART III. PROJECT DOCUMENTS

Chapter 7. Overview of Project

Documents	107
A. Main Project Documents and Their Functions.....	108
B. The Need for Consistency in Drafting: The Back-to-Back Concept	109
C. Relief Events	111
D. Differences in Civil and Common Law Approaches to Project Finance Documents....	115

Chapter 8. Concession Agreement **121** |

A. The Basic Legal Framework	122
B. Design of Individual Agreements	122
C. Potentially Contentious Clauses	123
1. Completion Date and Liquidated Damages	123
2. General Relief Events	123
a. Materially Adverse State Action.....	124
b. Hardship or Economic Balance	124
c. Stabilization (or Change in Law).....	125
d. Force Majeure Clause	126
3. Termination and Compensation for Termination.....	126
4. Waiver of Sovereign Immunity	127
5. Dispute Settlement	128

D.	Specific Lender Interests and Concerns.....	129
1.	Step-In Rights	129
2.	Adequate Compensation in the Event of Termination.....	130
3.	Security Interests in SPV Concession Rights.....	130
4.	Assignment of SPV Concession Rights ...	131
5.	Amendment Approval Rights	131
6.	Direct Agreement	131
E.	Summary of Concession Agreement Basics ...	132
	Chapter 9. Construction Contract	135
A.	Main Types of Construction Contracts.....	135
B.	Type of Contract Most Commonly Used in International Project Financings.....	136
C.	Standardization of Construction Contracts ...	136
D.	The Key Parties Involved in the Construction Process.....	137
1.	Employer.....	137
2.	Contractor.....	137
3.	Architects/Engineers	138
E.	The Basic Legal Concerns of the Employer, the Contractor and the Lenders	139
F.	Main Legal Issues in Construction Contracts	140
1.	Type of Contract.....	141
2.	Responsibility for Defects in Project Design	141
3.	Extension of the Completion Date	142
4.	The Types and Role of Liquidated Damages	143
5.	Determining When Construction Has Been “Completed”	144

6.	Adjusting or Reopening the Fixed Price	144
7.	Payment Procedure.....	145
8.	Compensating for Poor Contractor Performance	145
9.	The Force Majeure Clause.....	146
10.	Special Dispute Resolution Measures	147
Chapter 10. Operating Agreements: (1) Supply Contract and (2) Operation and Maintenance Contract.....		
149		
A.	Overview of Operating Agreements	149
B.	General Lender Interests in Operating Agreements	151
1.	Supply and Performance Risks	151
2.	Market and Demand Risks.....	152
3.	Risk Mitigation.....	154
C.	Supply Contract	154
1.	Lender Interests.....	155
2.	Risk Mitigation.....	156
D.	Operation and Maintenance Contract (the O & M Contract)	157
1.	Lender Interest.....	157
2.	Risk Mitigation.....	158
Chapter 11. Operating Agreements: Offtake/User Contracts.....		
161		
A.	General Considerations.....	161
1.	Types of Contracts.....	161
2.	Purpose of Offtake/User Contracts	161
3.	General Types of User/Offtake Contracts	162

B.	Nature of Lender Interest and Risks	163
1.	Supply Side Risks.....	163
2.	Demand Side Risks	163
3.	The Nature of the Offtaker/User's Obligation	164
C.	Risk Mitigation Measures	164
1.	Types of Wholesale Offtake/User Contracts	165
2.	Nature of Pricing Provisions	169
a.	Capacity and Energy Charges	169
b.	Price Adjustments: Escalation and Pass-Through Clauses	170
D.	Examples of Offtake/User Contracts and How They Work to Mitigate Risk	172
1.	Power Purchase Agreements: Fossil Fuel Power Plant Projects	172
2.	Throughput-and-Deficiency Agreements: Pipeline Projects and Transmission Lines	173
3.	Tolling Agreements: Processing Facilities (Refineries, Smelters, Power Plants).....	174
4.	Ore Purchase Agreements: New Mine Development.....	174
5.	Charterparty Contracts: Oil Tankers, Cargo Carriers, Drilling Rigs and Platforms	175
6.	Lease Agreement: Power Plants	175
7.	Availability Contracts: Toll Roads	176
E.	Summary of Operating Agreements.....	177

PART IV. ARRANGING FINANCE

Chapter 12. Elements of a Finance Plan	181
A. The Concept of Bankability.....	181
B. Funding for Project Preparation.....	182
C. The Process	182
D. Selection of the Lenders	185
E. The Financial Model.....	186
F. Axioms and Basic Principles.....	187
1. No Standard Method.....	188
2. Diversity of Lenders and Credit Support Providers.....	188
3. Blending.....	188
4. Changing Market Conditions	189
5. Differences in Risk Tolerance.....	189
6. Role of Public Sector Lenders.....	189
7. Debt/Equity Tension	190
8. Minimizing Refinancing Risk.....	190
G. Basic Types of Finance	191
1. Equity.....	191
2. Debt.....	192
3. Mezzanine.....	193
H. Nature of Equity Investor and Lender Concerns.....	193
I. Developing a Finance Plan for a Project Financing.....	195
 Chapter 13. Main Sources of Finance	 199
A. Factors to Consider in Evaluating Sources of Finance	199
B. Sources of Equity Finance.....	201
C. Sources of Senior Debt Finance	201
1. Private Sector Sources	202

a.	Commercial Banks.....	202
b.	Capital Markets	203
c.	Other Private Sector Sources.....	204
2.	Public Sector Sources.....	204
a.	Multilateral Development Banks	205
b.	Export Credit Agencies.....	207
c.	Government Development Finance Institutions.....	209
d.	Chinese Government Sources	209
D.	Sources of Mezzanine Finance.....	210
E.	Other Sources of Finance	211
1.	Environmental Sustainability Finance ..	211
2.	Islamic Finance	214
F.	Impact of Basel III on Sources of Funding for Project Finance.....	217
G.	Initiatives to Encourage Long Term Private Sector Funding.....	220

PART V. CREDIT SUPPORT

Chapter 14. Host Government and Third

	Party Credit Support.....	225
A.	Host Government Support	226
B.	Basic Types of Third Party Credit Support ...	228
1.	Insurance	228
2.	Direct Guarantees	229
3.	Derivatives.....	229
4.	Letters of Credit	229
5.	Surety Bonds	230
6.	Warranties.....	231
C.	Commercial Insurance	231
1.	Lenders' Interest	231
2.	Scope of Coverage.....	232
3.	Non-Vitiation.....	234

4.	The Local Insurance/ Reinsurance Issue.....	235
5.	Insurance Provisions in Loan Agreements.....	236
6.	Bond Insurance	237
D.	Public Sector Support.....	237
1.	Multilateral Development Banks.....	238
a.	Guarantees: Partial Risk Guarantee.....	238
b.	Guarantees: Partial Credit Guarantee.....	239
c.	B-Loan Programs	239
d.	Political Risk Insurance	240
e.	MDB Halo Effect.....	241
f.	Currency Devaluation Mitigation	241
g.	Output Based Aid	242
h.	World Bank Cascade Program	242
2.	Export Credit Agencies	243
3.	Specialized Bilateral Agencies	243
4.	Public Sector Support for Project Bonds	244
E.	Checklist of Methods of Providing Credit Support for Project Loans and Bonds.....	244
Chapter 15. Security over Project Assets		249
A.	Purpose of Security.....	249
B.	The Importance of Host Country Laws	250
C.	Due Diligence Issues Relating to Security	251
1.	Assets Subject to Security Interests	251
2.	Type of Security Interests.....	251
3.	The Floating Charge Concept.....	252
4.	Process for Obtaining Security Interests.....	252

5. Assignment	252
6. Enforcement	253
7. Rights After Enforcement.....	253
8. Limitation on the Use of Security	254
D. Direct Agreements	254
E. Typical Project Finance Security Package	256
Chapter 16. Derivatives.....	259
A. General Considerations	259
1. What Are Derivatives?.....	259
2. The Basic Forms of Derivative Instruments.....	260
3. The Main Uses of Derivative Contracts	261
4. Documentation of Derivative Transactions.....	262
B. Use of Derivatives in International Project Financings	263
1. General	263
2. Mitigation of Financial Risks: Interest Rate; Currency; and Commodity Price	264
3. Mitigation of Weather Risk	265
4. Mitigation of Credit Risk	265
5. Loan Agreement Provisions Dealing with Derivatives.....	266
6. Limits on the Use of Derivatives in International Project Financings.....	266
7. Added Risks Involved in the Use of Derivatives	267
C. Intercreditor Issues Raised by Hedge Provider Involvement	268

D. Discontinuation of the Use of LIBOR: A Major Challenge for the Derivatives Markets	268
---	-----

PART VI. FINANCIAL DOCUMENTATION

Chapter 17. Overview of Financial Documentation	273
A. The Functions	273
B. Types of Financial Documentation	275
1. Equity Documentation	276
2. Loan Documentation	277
3. Documentation for Capital Market Funding	279
4. Documentation to Govern Intercreditor Relations and Coordination of Project Funding and Collateral	282
Chapter 18. Syndicated Loans	285
A. Introduction to Syndicated Bank Loans	285
1. Nature of Syndicated Loans	285
2. The Function	286
3. The Types	286
B. The Process	287
1. Mandate Letter	287
2. Preliminary Term Sheet	289
3. Information Memorandum	289
4. Formation of the Syndicate	290
5. Loan Agreement and Common Terms Agreement	292
6. Closing	292

C. Funding and Pricing of Syndicated Bank Loans	293
1. Historical: LIBOR Based Funding (Before the End of 2021)	293
2. The Future: Post LIBOR (the End of 2021 and Beyond).....	294

Chapter 19. Structure and Substantive

Clauses of Syndicated Loans	297
A. The General Structure of Loan Agreements	297
B. Key Clauses Commonly Found in Syndicated Loan Agreements.....	300
1. Main Lender Protection and Control Clauses	300
a. Representations and Warranties	301
b. Conditions Precedent.....	301
c. Covenants	302
d. Events of Default	303
e. Loan Acceleration	304
f. Summary of Main Protection and Control Clauses.....	305
2. Other Lender Protection and Control Clauses	306
a. Reserved Discretion	306
b. Derivative Transactions	307
c. Right of Set-Off	307
3. Change of Circumstances Clauses	308
a. Illegality	308
b. Material Adverse Change.....	308
4. Margin Protection Clauses	309
a. Increased Cost.....	309
b. Capital Cost.....	309

c.	Tax Gross-Up	310
d.	Market Disruption	310
e.	Broken Funding	310
5.	Clauses Dealing with Relations Among the Lenders.....	311
a.	Cross Default.....	311
b.	<i>Pari-Passu</i>	312
c.	Negative Pledge	312
d.	Sharing of Payments	313
e.	Agent Bank.....	313
6.	Dispute Resolution Clauses.....	313

Chapter 20. Loan Documentation: Ancillary

	Documents	315
A.	Common Terms Agreement and Closing Documents.....	315
1.	Common Terms Agreement.....	315
2.	Closing Memorandum.....	316
3.	Legal Opinions	317
B.	Loan Administration Documents	318
1.	Agency Agreement	319
2.	Collateral Account Agreement	319
3.	Project Account Agreements.....	320
a.	Purpose	320
b.	Operational Period Accounts.....	321
4.	Intercreditor Agreement.....	324

Chapter 21. Intercreditor Issues..... 325

A.	Overview.....	325
B.	Intercreditor Agreement	326
C.	Specific Intercreditor Issues	328
1.	Preferred Creditor Status: In General.....	328
a.	The Basic Concept.....	328

b.	Categories of Preferred Creditors	328
c.	Applications and Consequences	329
2.	Preferred Creditor Status: B-Loan	
	Transactions	329
a.	The Concept	329
b.	The Benefits	330
3.	Hedge Providers	332
4.	Negative Pledge Clause	333
a.	The Concept	333
b.	Application in International Project Financing	335
5.	Offshore Accounts	336
6.	Conflicting Interests in the Pledged Shares of the SPV	336

PART VII. WHEN PROBLEMS ARISE

Chapter 22. Renegotiation and Restructuring	341
A. The Need for Flexibility in Project Finance	
Documentation	341
1. Automatic Review Clauses	342
2. Automatic Adjustment Clauses	342
3. Specific Renegotiation Clauses	342
B. Elements of a Restructuring	343
1. The Process	343
2. Key Elements of a Standstill Agreement	344
3. Institutional and Organizational Aspects	345
4. Prerequisites to a Successful Renegotiation/Restructuring	346
5. Key Variables in a Debt Restructuring ...	347
6. The Political and Social Dimensions	347

7. Potential Problem Areas	348
8. The Role of the Lawyer	349
C. Lessons from Major Project Finance Restructurings	349
Chapter 23. Dispute Settlement	353
A. Unique Nature of International Project Finance Dispute Settlement	353
B. Basic Dispute Settlement Options.....	354
1. Methods Where the Parties Themselves Agree on a Solution.....	355
a. Negotiation	355
b. Mediation and Conciliation	355
c. Mediation-Arbitration	355
d. Dispute Review Boards and Conciliation Commissions	356
e. Potential Disadvantages.....	357
2. Methods Where Third Parties Impose a Resolution of the Dispute	358
a. Arbitration.....	358
b. Litigation	360
C. The Current Environment	360
1. Overview	360
2. Bilateral Investment Treaties	361
3. Growth of International Investment Arbitration.....	363
D. Key Issues in Investment Dispute Arbitration	363
1. Conflicting Arbitral Awards on the Same Fact Situation.....	363
2. Precedent and Appeal	364
3. Constraints on Host Government's Flexibility to Regulate	365

4. Confidentiality.....	365
5. Cost and Time	365
6. Joinder of Parties and Consolidation of Disputes.....	366
7. Umbrella Clause.....	367
8. Use of Anti-Arbitration Injunction	368
9. Challenges to the Jurisdiction of the Arbitral Tribunal	368
10. Finality and Enforcement of Arbitral Awards.....	369
E. Summary of Concerns and Proposals for Change.....	370
1. Concerns	370
2. Proposals.....	370
F. Benefits of Non-Adjudicatory Dispute Resolution.....	371

**PART VIII. APPLICATION OF PROJECT
FINANCE TECHNIQUES TO SPECIFIC
ECONOMIC SECTORS**

Chapter 24. Infrastructure Projects	375
A. Infrastructure Generally.....	375
1. Public-Private Partnerships.....	376
a. Definition of PPP	376
b. Reasons for Use of PPPs.....	377
c. Types of PPPs.....	378
d. Financing of PPPs.....	380
2. General Characteristics of Infrastructure Projects	382
a. Generally Reliable Cash Flow.....	382
b. Relatively Low Technical/Technology Risks	383
c. Substantial Government Role.....	383

d.	The Role of Individuals as Ultimate Offtakers/Users	385
e.	Constraints on Pricing Policy of Infrastructure Projects	385
f.	Risk of Public Opposition to PPPs	386
g.	Environmental, Social and Human Rights Issues	386
h.	Foreign Exchange Risk	387
B.	Power Infrastructure	387
1.	General	387
2.	Fossil Fuel	388
a.	Characteristics of Fossil Fuel Projects	388
b.	Dealing with Fossil Fuel Project Risks	392
3.	Renewable Energy Projects	394
a.	Key Characteristic of Renewable Energy	394
b.	The Special Case of Hydropower	396
c.	Dealing with Renewable Project Risks	397
C.	Transport Infrastructure: Roads	399
1.	Characteristics of Road Projects	399
a.	Minimal Nature of Certain Project Risks	399
b.	Nature of Market and Traffic Risk	400
c.	Political, Environmental and Routing Risks	401
2.	Dealing with Road Project Risks	401
a.	Shadow Tolls	401
b.	Availability Payments	401
c.	Viability Gap Payments	402

D.	Other Forms of Transport Infrastructure:	
	Airports, Ports, and Light Rail	402
E.	Telecommunications Infrastructure	403
1.	Characteristics of Telecommunications	
	Projects	404
a.	Rapid Technological Change	404
b.	Retail Nature of the Market.....	404
c.	Unpredictability of the Revenue	
	Stream	404
d.	Regulatory and Licensing	
	Requirements	405
e.	Need for Interconnection	405
f.	Right of Way Issues	405
2.	Application of Project Finance	
	Techniques to the Telecoms Sector	406
Chapter 25. Oil, Gas, and Mining Projects ...		407
A.	Oil and Gas Projects	407
1.	Sector Characteristics	407
a.	Broad Range of Activities and	
	Stages.....	407
b.	Global Nature of the Markets	408
c.	Fewer Foreign Exchange Risks.....	408
2.	Key Risks in the Oil and Gas Sector	409
a.	Reserve Risks	409
b.	Technical Risks	409
c.	Environmental and Social Risks.....	409
d.	Cross Border and Political Risks	410
e.	Pricing Risks	410
3.	Project Finance Techniques Used in the	
	Oil and Gas Sector	410
a.	Upstream (Financing Exploration,	
	Development, and Production).....	411

b. Midstream and Downstream (Financing Transport, Processing, and Delivery).....	412
4. LNG Projects	412
B. Mining Projects.....	413
C. Vessel Financing for Oil, Gas, and Mining Projects.....	414
Appendix 1. Example of a Generic Project Risk Matrix.....	417
Appendix 2. General Due Diligence Checklist	423
Appendix 3. Summary of Tax and Accounting Issues.....	433
Appendix 4. Checklist of Concession Provisions.....	447
Appendix 5. Criteria for Evaluating Debt Finance.....	459
Appendix 6. Relevant Financial Concepts and Ratios.....	471
Appendix 7. Outline of a Common Terms Agreement	477
Appendix 8. Reference Material	483
INDEX.....	487
